## Mine Safety and Health Administration

### Petitions for Modification

The following parties have filed petitions to modify the application of mandatory safety standards under section 101(c) of the Federal Mine Safety and Health Act of 1977.

#### 1. Black Gem Mining, Inc.

[Docket No. M-95-63-C]

Black Gem Mining, Inc., P.O. Box 1257, Pikeville, Kentucky 41502 has filed a petition to modify the application of 30 CFR 75.1710 (canopies or cabs) to its No. 3 Mine (I.D. No. 15-12303) located in Floyd County, Kentucky. The petitioner proposes to operate its No. 2 (482 S & S Scoop) without a canopy due to 28 feet of substandard conditions and a height of approximately 28 inches to 32 inches. The petitioner states that the mine is located in the Elkhorn No. 3 seam and the height of the seam is very irregular, ranging from 28 inches to 96 inches; that the scoop's primary function is for cleaning and dusting, hauling timbers, brattice blocks, and for keeping the return airways free from obstructions on the No. 1 and No. 2 entry; and that periodically, because of the design of the solid state controls on the scoop, the scoop must be used out of its primary function due to dampness that occurs when not operated frequently rendering the scoop inoperable. The petitioner asserts that application of the standard would result in a diminution of safety to the equipment operator.

#### 2. Shady Lane Coal Corporation

[Docket No. M-95-64-C]

Shady Lane Coal Corporation, P.O. Box 776, Grundy, Virginia 24614 has filed a petition to modify the application of 30 CFR 77.214(a) (refuse piles; general) to its Mine No. 4 (I.D. No. 44-06651) located in Buchanan County, Virginia. The petitioner requests a modification of the standard to allow construction of a refuse fill in an area containing abandoned mine openings. The petitioner asserts that the proposed alternative method would provide at least the same measure of protection as would the mandatory standard.

#### 3. Genwal Resources, Inc.

[Docket No. M-95-65-C]

Genwal Resources, Inc., P.O. Box 1201, Huntington, Utah 84528 has filed a petition to modify the application of 30 CFR 75.804(a) (underground high-voltage cables) to its Crandall Canyon Mine (I.D. No. 42-01715) located in Emery County, Utah. The petitioner requests a modification of the standard to permit the use of Anaconda Type SHD+GC, Pirelli Type SHD-CENTER-GC, and Tiger Brand Type SHD-CGC flame-resistant cables with a flexible No. 16 (A.W.G.) ground check conductor for the ground continuity check circuit. The petitioner asserts that the proposed alternative method would provide at least the same measure of protection as would the mandatory standard.

#### 4. Shell Energy Company, Inc.

[Docket No. M-95-66-C]

Shell Energy Company, Inc., P.O. Box 423, Fairmont, West Virginia 26554 has filed a petition to modify the application of 30 CFR 75.364(b)(2) (weekly examination) to its Stacy-Meranda Mine (I.D. No. 46-08086) located in Harrison County, West Virginia. Due to hazardous roof conditions in the No. 3 return air course from 130 feet into the pitt mouth to the No. 7 crosscut, traveling the affected area in its entirety would be unsafe. The petitioner proposes to establish monitor points "A" and "B" to test for methane and quantity of air in the affected area; to have a certified person examine each monitor point on a weekly basis and record the results in a record book kept on the surface available for inspection by interested persons; to record daily examinations of the water gauge at the main fan in a record book kept on the surface; to cease mining if a 10 percent change occurs in the water gauge on the active section until corrective action has been made; to cease mining if a 10 percent decrease in the quantity of air is measured at either monitor point "A" or "B" in the active section until corrective action has been made; and to cease mining if an increase of .05 percent of methane is detected at either monitor point in the active section until corrective action has been made. The petitioner asserts that the proposed alternative method would provide at least the same measure of protection as would the mandatory standard.

#### 5. Hunt Midwest Mining, Inc., Licausi Services Company, Holland Corporation, Amerigold Corporation, Missouri Rock, Inc., and Parkville Stone Company

[Docket No. M-95-07-M]

Hunt Midwest Mining, Inc., Route 13, 4th Street & Randolph Road, Randolph, Missouri 64161 has filed a petition to modify the application of 30 CFR 49.8 (training for mine rescue teams) to its Randolph Mine (I.D. No. 23-00154) located in Clay County, Missouri. The petitioner is requesting this modification for The Kansas City Mine Rescue Teams and states that the following underground mining companies would also be affected by this modification: Licausi Services Company, Carefree Quarries (I.D. No. 23-00007) located in Jackson County, Missouri; Holland Corporation, Mine No. 1 (I.D. No. 14-00761) located in Johnson County, Kansas; Amerigold Corporation, Inland Quarries (I.D. No. 14-00159) located in Wyandotte County, Kansas; Missouri Rock, Inc., Missouri Rock, Inc. Mine (I.D. No. 23-01981) located in Clay County, Missouri; and Parkville Stone Company, Parkville Stone Mine (I.D. No. 23-01883) located in Platte County, Missouri. The petitioner requests a modification to allow training requirements to be met at different time frames. The petitioner proposes to conduct training three hours under oxygen four times annually for twelve hours instead of two hours every other month for the same annual hours; and to hold training six times annually with equipment checks monthly, and to reserve two sessions for annual physicals and first aid training. The petitioner asserts that the proposed alternative method would provide at least the same measure of protection as would the mandatory standard.

#### Request for Comments

Persons interested in these petitions may furnish written comments. These comments must be filed with the Office of Standards, Regulations, and Variances, Mine Safety and Health Administration, Room 627, 4015 Wilson Boulevard, Arlington, Virginia 22203. All comments must be postmarked or received in that office on or before June 19, 1995. Copies of these petitions are available for inspection at that address.

Dated: May 11, 1995.

## NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

### Records Schedules; Availability and Request for Comments

**AGENCY:** National Archives and Records Administration, Office of Records Administration.

**ACTION:** Notice of availability of proposed records schedules; request for comments.

**SUMMARY:** The National Archives and Records Administration (NARA) publishes notice at least once monthly of certain Federal agency requests for records disposition authority (records schedules). Records schedules identify records of sufficient value to warrant preservation in the National Archives of the United States. Schedules also authorize agencies after a specified period to dispose of records lacking administrative, legal, research, or other value. Notice is published for records schedules that (1) propose the destruction of records not previously authorized for disposal, or (2) reduce the retention period for records already authorized for disposal. NARA invites public comments on such schedules, as required by 44 USC 3303a(a).

**DATES:** Request for copies must be received in writing on or before July 3, 1995. Once the appraisal of the records is completed, NARA will send a copy of the schedule. The requester will be given 30 days to submit comments.

**ADDRESSES:** Address requests for single copies of schedules identified in this notice to the Records Appraisal and Disposition Division (NIR), National Archives and Records Administration, College Park, MD 20740. Requesters must cite the control number assigned to each schedule when requesting a copy. The control number appears in the parentheses immediately after the name of the requesting agency.

**SUPPLEMENTARY INFORMATION:** Each year U.S. Government agencies create billions of records on paper, film, magnetic tape, and other media. In order to control this accumulation, agency records managers prepare records schedules specifying when the agency no longer needs the records and what happens to the records after this period. Some schedules are comprehensive and cover all the records of an agency or one of its major subdivisions. These comprehensive schedules provide for the eventual transfer to the National Archives of historically valuable records and authorize the disposal of all other records. Most schedules, however, cover records of only one office or program or a few series of records, and many are

updates of previously approved schedules. Such schedules also may include records that are designated for permanent retention.

Destruction of records requires the approval of the Archivist of the United States. This approval is granted after a thorough study of the records that takes into account their administrative use by the agency of origin, the rights of the Government and of private persons directly affected by the Government's activities, and historical or other value.

This public notice identifies the Federal agencies and their subdivisions requesting disposition authority, includes the control number assigned to each schedule, and briefly describes the records proposed for disposal. The records schedule contains additional information about the records and their disposition. Further information about the disposition process will be furnished to each requester.

#### Schedules Pending:

1. Department of the Air Force (N1-AFU-95-6). Routine records of closing bases.
2. Department of Commerce, International Trade Administration (N1-489-94-1). Records of the Industrial Trade Staff.
3. Department of Housing and Urban Development (N1-207-94-4). Revision of schedule for Community Planning and Development records.
4. Department of Justice (N1-60-95-3). Autopen request file.
5. Department of State, Bureau of Intelligence and Research (N1-59-95-9). Routine, facilitative, and duplicative records relating to reporting and research.
6. Department of State, Bureau of Economic and Business Affairs (N1-59-94-22, -23, and -24). Routine, facilitative, and duplicative records relating to international finance and development affairs.
7. Department of State, Bureau of Economic and Business Affairs (N1-59-94-29, -34, and -35). Routine, facilitative, and duplicative records relating to energy, sanctions, and commodities.
8. Department of the Treasury, Office of Thrift Supervision (N1-195-95-1). Records of the Office of the Chairman, Federal Home Loan Bank Board, determined during archival processing to lack sufficient archival value to warrant permanent retention by the National Archives.
9. Animal Plant Health Inspection Service (N1-463-95-1). Routine administrative files relating to pilot and aircraft certifications.

10. Animal Plant Health Inspection Service (N1-463-95-2). Copies of patent applications.

11. Defense Contract Audit Agency ((N1-372-95-2). Agency Management Information System reports.

12. Defense Nuclear Agency (N1-374-95-2). Base operations support contractor records of non-program facilitative and routine base maintenance functions at Johnston Atoll.

13. Defense Nuclear Agency (N1-375-95-4). Routine physical security inspection reports.

14. Federal Communications Commission (N1-173-94-1). Radio frequency device authorizations.

15. Federal Communications Commission (N1-173-94-2). Revision of Licensing Division records schedule.

16. National Reconnaissance Office (N1-525-95-1). Comprehensive records disposition schedule which provides for disposal of routine and facilitative records. Records that document overall policies, plans, procedures, and significant activities are permanent.

17. Social Security Administration (N1-47-95-1, -2, -3). Reduction in retention period for Supplemental Security Income Claims Folders, Disability Insurance Claims Folders, and Retirement and Survivors Claims Folders.

18. Office of the Secretary of Defense (N1-330-95-4). Reduction in retention period of certain laboratory records previously scheduled as temporary.

19. National Aeronautics and Space Administration (N1-255-95-1). Unidentifiable flight engineering test data, 1961-1972.

Dated: May 11, 1995.

## NATIONAL SCIENCE FOUNDATION

### Special Emphasis Panel in Mathematical Sciences

In accordance with the Federal Advisory Committee Act (Pub. L. 92-463, as amended), the National Science Foundation announces the following meeting.

*Name and Committee Code:* Special Emphasis Panel in Mathematical Sciences.

*Date and time:* June 3, 1995, 8:30 am to 5:00 pm.

*Place:* Office of the Conference Board of the Mathematical Sciences, 1529 Eighteenth Street N.W., Washington, DC 20036.

*Type of Meeting:* Closed.

*Contact Person:* Dr. Keith Crank, Program Officer, Room 1025, National Science
